Note: This table presents unduplicated counts of individuals and households who experienced homelessness and received rapid rehousing services in the 2016 fiscal year. "Prior Living Situation" refers to the place where a person lived and slept most of the time prior to entering the program. "Unsheltered" refers to individuals living outdoors or in places not intended for human habitation, such as a park or the beach. "Sheltered settings" category includes emergency shelters, transitional housing, mental health and medical hospitals, prisons, substance abuse facilities, and the YMCA. "Doubled up" refers to individuals living in a family member's or friend's room, apartment, or house.

Note: This table presents unduplicated counts of individuals and households who experienced homelessness and received shelter program services in the 2016 fiscal year. "Prior Living Situation" refers to the place where a person lived and slept most of the time prior to entering the program. "Unsheltered" refers to individuals living outdoors or in places not intended for human habitation, such as a park or the beach. "Sheltered settings" category includes emergency shelters, transitional housing, mental health and medical hospitals, prisons, substance abuse facilities, and the YMCA. "Doubled up" refers to individuals living in a family member's or friend's room, apartment, or house.

Note: This table presents unduplicated counts of veterans who experienced homelessness and received homeless program services in the 2016 fiscal year. The first enrollment record was used when there were multiple records in the reporting year. "Other Pacific Islanders" category includes Marshallese, Micronesians, and other Pacific Islanders. "Prior Living Situation" refers to the place where a person lived and slept most of the time prior to entering the program. "HH w/ children" category includes single- and two-parent households, and other households with children.

Note:

- Most of the subpopulations presented in the table are not mutually exclusive, except for people within the two categories of household type, and people within the four categories of children and youth under 24. Chronically homeless families are those with at least one adult family member who is chronically homeless.
- The number of homeless service system users is an unduplicated count of individuals who accessed emergency shelter, transitional housing, outreach, and/or rapid rehousing services in the 2016 fiscal year.
- Newcomers are those who accessed the homeless service system for the first time in FY 2016 and for whom no previous intake records could be found in the Statewide Homeless Management Information System (HMIS) since FY 2007.
- The number of permanent housing exits is an unduplicated count of individuals who exited the homeless service system to a permanent housing destination in FY 2016. The percentage of permanent housing exits was calculated based on all individuals who exited the homeless service system in the reporting year. Certain exit destinations unrelated to housing outcomes were excluded from the exit analysis; those destinations included hospital, long-term care facility, foster care home, and deceased, with a total of less than 1.5% of all exits.

*Note: Emergency shelter programs also include Safe Haven. Data include specific shelter program enrollment records of all clients who were active anytime during the reporting period and their uninterrupted enrollments that started in a previous year. Being discharged from a shelter program and then enrolled in another shelter program on the same day does not count as an interruption in enrollment. When clients' enrollment with a shelter program overlaps with their enrollment with another housing program of a more stable nature (e.g. permanent supportive housing), the overlapping period is excluded from the total length of time. Any qualifying records since FY 2007 are included.*
